

Blues On Broadbeach

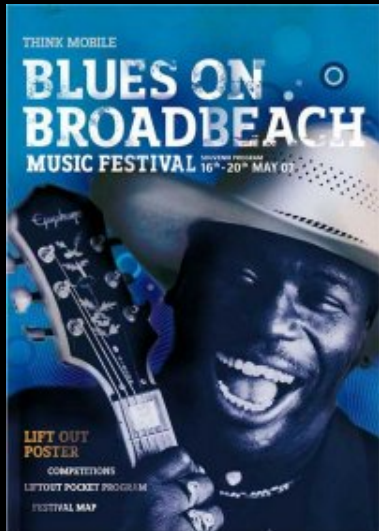

Top Notch Productions was approached to help with a concept...

A Blues Festival in Broadbeach and we are very proud to see the accomplishments of the Festival and the benefits it has given to the local community, Broadbeach as a precinct and of course promoting the amazing Blues talent that this country has to offer.

Top Notch provided the entertainment and site management team for Blues on Broadbeach Music Festival since its inception in 2002 through to 2007. The first festival attracted approximately 10,000 visitors over 5 days and in its sixth year the festival, a recognised world-class event, attracted over 75,000 and counting!

The main aim of Top Notch Productions was to provide a wide mix of local, interstate and international blues entertainment which catered for all age groups, program an interesting and superior event to suit various types of venues and design individual concerts to attract certain demographics which successfully grew over the six years.
